

April 27, '99

To whom it may concern ^{APR 29 APR 29 P1:46}

Stop poisonning our Foods!! No wonder the Cancer rate is going up! Our food is not food at all anymore with the genetic engineering, herbicides, pesticides, irradiation and fungicides used!! What are we doing to our children in this country?!

What are we actually feeding them?!

I demand that irradiation and genetic engineering be put on our Foods! I want to Avoid these Foods at all costs! That's why I buy organic, and preach this to my friends and family.

Why doesn't the FDA want to label FOODS accodingly?!! Our country is diseased because of the FOOD... It makes me ill to think about it!
